

HydraPeptide™ Gel

- A unique Hyaluronic acid-based gel designed to enhance skin moisture and reduce signs of photoaging
- Contains Palmitoyl oligopeptide and Palmitoyl tetrapeptide-7, short-chain amino acids that mimic fragments of human collagen. Such peptides are demonstrated to increase the proliferation rate of human dermal fibroblasts which produce collagen, thus improving the dermal support matrix and reducing fine lines and wrinkles
- Additionally contains Glycosaminoglycans and Sodium chondroitin sulfate, clinically demonstrated to inhibit matrix metalloproteinases which are generated by UV exposure and can break down collagen and elastin fibers within the skin
- Water-based vehicle is oil-free, fragrance-free and non-comedogenic, appropriate for use under make-up, sunscreen or moisturizer, or as a light-weight moisturizer for acne-prone skin

Contains:

Water, Sodium hyaluronate, Glycosaminoglycans, Sodium chondroitin sulfate, Glycerin, Butylene glycol, Carbomer, Polysorbate-20, Palmitoyl oligopeptide, Palmitoyl tetrapeptide-7, Niacinamide, Caprooyl tetrapeptide-3, Panthenol, Camellia oleifera (Green Tea) extract, Iodopropynyl butylcarbamate and Edetate disodium.

Dosage and Administration: Apply 1-2 times daily, under sun-screen, moisturizer or makeup.

Precautions:

For external use only. Keep away from eyes and mucosa. If contact occurs, rinse thoroughly with water. If irritation, redness, itching or rash occurs, discontinue use and consult physician. HydraPeptide is not for use on irritated or abraded skin. In case of accidental ingestion, seek professional assistance or contact a Poison Control Center immediately. Do not use if pregnant or nursing. Keep out of reach of children.

How Supplied:

30 mL in glass bottles with dropper applicator

Store in a cool, dry place.
